

Will Wudhu Break with Fluid Emerging from the Eye or Ear?

Q: Taharaat-52: Will wudhu be nullified when pain in the eye or ear is accompanied by a discharge of fluid or any other substance, which then flows outside the eye or ear? What if salaah is performed after this takes place?

Answer: Wudhu will be nullified when pain in the eye or ear is accompanied by a discharge of fluid or any other substance, which then flows outside the eye or ear on to an area that needs to be washed during wudhu or Ghusl. Wudhu will therefore have to be made before performing salaah and any salaah performed without repeating the wudhu after this has happened will have to be repeated. Wudhu will however not be nullified if there is no pain with the discharge. And Allaah knows best what is most correct.
