Question

I came to know from a person who spend 4 months tabligh jamath in north india that he saw in a masjid a list of 40 things / deeds which we should avoid,otherwise poverty will affect us. I noticed that after this, this person at any effort tries to avoid these matters. It includes presence of spider nest inside the home, answering to the nature's call in naked, etc....?? Is this right? If yes, plz mention all those 40 points or atleast the maximum which you can point out so that the *ummath* can avoid these things
