

I shall conclude by quoting a Fatwa of the great Mufti Kifaayatullaah RAH.

Q: Imaan-33 : Is it permissible to eat the slaughtered animal of people from the Mahdawiyyah sect who believe that the doors to Taubah are closed?

Answer: The Mahdawiyyah sect who are found in the Dakkan area are kuffaar and the animals they slaughter are therefore not permissible."

NOTE: you ought to know that most members of this sect are gradually reforming and their new generation who are unaware of the sect's beliefs are adopting correct beliefs through their interaction with people holding correct beliefs. They are therefore Mlhdawiyyah followers only by name and will therefore not fall under the ambit of the above ruling. There are, of course, those who still adamantly follow the beliefs of the Mahdawiyyah sect. May Allaah keep me and everyone else firm on the straight path and grant us a good death.
